## MINING NEWS.

J. R. Reno, a mill man from Quartzsite, near Tyson's Well, came down from that flourishing mining camp the first of the week, and is looking for a location. He reports a good state of affairs in the section he has been in, and predicts a boom in the fall. Smith & Adam's new strike eighteen miles from Tyson's is proving a big thing. The Marquette, the property of Mrs. Travis, is being developed and shows up wonderfully well. The main shaft is now down seventy feet, all in ore, which will average \$25 per ton. There are many other claims in the vicinity which are looking well, and which will help to bring that section to the front when the boom strikes.—Yuma Sun.

Geo. H. Miles' mine one mile south of town has been bonded to Edward Groenendyk and D. D. Fowler of Pasadena, California, for \$4,000. The bond will expire on November 1. In the meantime the gentlemen who bonded it have given Mr. Miles a contract to sink 100 feet on the ledge. A great many men who have examined this property agree that it will prove a good mine. If it does Yuma will be benefitted thereby, owing to its close proximity.—Yuma Sun.

The Twin Buttes mines have been sold. It is stated on good authority that the sum of \$105,000 is deposited in an eastern bank, and information was received yesterday by wire that the deed would be taken up on the 12th of this month. This is the rich copper group of mines of Baxter, Irish and Ellis. The shaft is down 100 feet and a fine body of high grade ore at the bottom. The sale of this property means much for Tucson and the Olive district, for a dozen other sales will follow in quick succession.—Star.
